W. J. Leidy and C. H. Burke, of the Needles, and A. S. Coon, of Peach Springs, attended the I. O. O. F. Lodge here Tuesday night. Kingman Lodge No. 7 now has sixty-one members.

Beecher & Co., Tuesday sent twenty mules to the Copper World mine to be used in packing ore from the mines to the wagon road a distance of two miles, from which point the ore is hauled by wagon to Yuca.

Wm. Mills, the mining expert from Magdalena, N. M., and Ed. Henson left Sunday morning to examine some mines below Signal. They will continue their trip to the Harqua Halas and will be absent several weeks.

Six Wallapai Indians were arrested at Hackberry Wednesday by Deputy Marshall Steen and were brought before U. S. Commissioner Blakely Thursday on a charge of assault with intent to commit murder. The case occupied the attention of the Commissioner the greater part of the day and Friday forenoon. The examination resulted in the discharge of the Indians.

A petition has been circulated at Hackberry for the pardon of Dr. Warren E. Day, who was at the last term of the United States Court sentenced to a term of two years at Yuma, for polygamy. The petition sets forth that the conviction was obtained by false evidence, which at that time could not be controverted. Nearly every resident of Hackberry signed the petition.

The following lots of ore have been run through the Sampling Works this week: M. D. Howell, C. O. D. mine, one car; John Mackenzie, two car loads from the Prince George, which proved to be of higher grade than expected; George Miller, from El Dorado Canyon, a small lot of 300 ounce ore. W. W. Clark has a car load ready for shipment, which cannot be shipped for want of cars.

A. F. Simonds will move the new hoisting machinery for the Kattan mine from Needles to the mine. The machinery will be loaded on a flatboat and towed up to Fort Mohave by Indians, and then hauled by wagon to the mine. It is very heavy, and the hoist is intended for a thousand feet. The boiler weighs three tons. It will probably be nearly three months before the machinery is ready for operation.

The well known and enterprising publishers, The History Company of San Francisco, have just published the long talked of new book, entitled "Marvels of the New West." This grand book has been eagerly awaited and will be largely sought after by the people throughout the entire Pacific Coast. The success agents are having on this book is something extraordinary. The publishers want agents to sell the book; and offer rare inducements. See advertisement in another column.

On Tuesday night of this week about 9 o'clock Wm. B. Stephens, while passing along Fourth street, near Watkins' drug store, was attacked by some one unknown to him. He was struck over the left ear with a revolver, the blow partially stunning him, and knocked down. The attacking party then proceeded to kick him, and would in all probability have severely injured him if his calls for help had not been heard and assistance rendered. The assailant disappeared in the darkness. Mr. Stephens is still suffering from the blows and kicks received. It is not "Jack the Killer" or "Jack the Kisser" who is among us, but "Jack the Knocker."

Peach Springs Notes.

Peach Springs is the end of a freight division of the A. & P. Railroad. The company have a ten-stall round house and repair shop here, and employ about twenty men in the shop. The company have a number of cottages for the use of the families of engineers who make this point their home. A bunk house is being built for the convenience of engineers and firemen, a convenience which will be greatly appreciated by them. The water supply for the railroad company and the town is obtained from a spring about three miles north of the town. An eating house is also located here, and at present trains take dinner here. John Love is the Master Mechanic of the shops and round house, and is a thoroughly competent mechanic and a pleasant gentleman.

T. O. Hurst is the A. & P. Railroad and Wells, Fargo Express Co.'s genial and accommodating agent, a position which he has held for a number of years.

The railroad company recently completed sheds and a corral here for Fred. Harvey, the lessee of the A. & P. eating houses, which are intended for a dairy, from which Mr. Harvey will supply his eating houses along the A. & P. with milk. About forty cows will be kept and stalls, grain and hay sheds have been built for the accommodation of that number. The dairy is an experiment, and it is hoped that it will be a successful one.

The railroad company have recently taken up one side track here and will soon take up another one.

J. N. Cohenour has the only stock of general merchandise in the place. Mr. Cohenour started in business about two years ago in a small way, and has gradually added to his stock until now it represents the value of several thousand dollars. He has during the two years built a new store. Mr. Cohenour is also the postmaster and D. S. Murphy is his accommodating assistant. Mr. Cohenour pays close attention to business and looks to the interest of his patrons.

Dr. Albert Crook has recently completed the handsomest building in town. It is original in design and construction and is an ornament to the place. The Doctor enjoys the reputation of keeping the choicest liquors along the line of the A. & P. James Carter, an old Kingman boy, is the Doctor's assistant.

J. L. Nelson has a full line of first-class "Kentucky hardware" and boasts of having the finest bar in Mohave county. "Mickey" is the Chairman of the Board of Supervisors and is popular among the railroad men.

Sam Sing runs the only restaurant and Lung Choo runs the only lunch counter in the place.

Smith & Kinne have recently purchased the stock and fixtures of the saloon formerly run by J. T. Somerset, and will add to the stock and refit the place in first-class style.

J. H. Farlee keeps the lodging house and runs the stage line to the Grand Canyon of the Colorado, making trips to the Grand Canyon, twenty miles north, whenever parties desire to make the trip.

John D. Selken furnishes the people with choice fresh meat. Mr. Selken is also Justice of the Peace and day telegraph operator.

The yards at this place are filled with cars loaded with coal, and but little freight aside from coal is now moving west.

J. W. Shankland is now running the switch engine days. Jim likes to take life easy.

Some enterprising capitalist could make money by building small cottages here, as a good many families are living in cars and dog out at present.

Last Saturday some vandals amused

themselves by shooting the school house full of holes. The ceiling and inside walls of the house contain nearly one hundred bullet holes. The parties who did the shooting have left town, and it is not likely that any prosecutions will be made if they stay away.

The lovers of the dance indulged in the "light fantastic" on last Friday night.

J. H. Farlee left for the Grand Canyon with a party of Peach Springs people on Sunday. They expect to return Wednesday.

Business is just now rather dull with the railroad company, and it is probable that a number of the employees will be temporarily laid off.

C. B. Donaldson will shortly move to his ranch in Yavapai county.

Arthur Everett, the Albuquerque jeweler, made the Springs one of his periodical visits.

George Rolley and Miss Clara Johnson were married at the residence of J. H. Farlee on Wednesday. Justice of the Peace J. D. Selken united the happy pair.

A. S. Coon made a trip to Winslow on last Saturday, returning Monday.

Astin Moore and family have moved to Winslow, where they will reside in the future.

J. T. Somerset and family left last week for Los Angeles, Cal., where they will remain for some time.
